Innovative Method Adopted for Teaching & Learning 2022-2023

Sl. No	Name of the Faculty	Innovation	Description
1	Dr.Syam Mohan	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/ processes which are collectively named as courseware course pack
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Learning By doing Method	It is the simple idea that we are capable of learning more about something when we perform the action.
		Web references	Relevant e learning materials and videos from good sources are utilised to increase the understanding of concept and techniques in an effective manner.
		Study materials for reference	Printout of slides are taken and distributed before the classes and handled so that students can use the same for their reference during and after class
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions

2	Jithin Jacob	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/processes which are collectively named as courseware course pack
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		Peer learning during revision	Adopted peer learning through group study during the revision classes so that students could be able to interact with each other and clear their doubts
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Skill development programmes	Group discussions, brain storming sessions and seminars help the students to develop a lively discussion thereby improving their communication skill and also create an interest in the subject.
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
3	Sivakumar R	Linways	Linways is an innovative learning management software which provides centralised and automated administration.
		Multimedia Tools	Classes are conducted using multimedia tools like PowerPoint presentations coupled with video lectures for all modules with ICT enabled facilities.
		E-learning videos and lectures	Relevant E-learning materials and videos from good sources are utilized to increase the understanding of concepts and techniques in an effective manner
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Viva sessions	Individual module wise viva for students as a process of revision and remedial measures
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So that the students can refer it during and after the sessions

		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
		Industrial Visit	To get industrial exposure and demands of the society
4	Lekshmi Vikraman	Linways	it is an innovative learning management software which provides centralized and automated administration
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		Study materials for reference	Printout of slides are taken and distributed before the classes and handled so that students can use the same for their reference during and after class
		collaborative teaching	the laboratory sessions and lab demos are made as a regular part in making the students understands the concepts associated with the theory subjects
		Peer learning during revision	Adopted peer learning through group study during the revision classes so that students could be able to interact with each other and clear their doubts
		Quiz	A set of multi choice questions are given from a relevant topic and to be solved within the specific time
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So that the students can refer it during and after the sessions
		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
5	Sherin M Wilson	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/ processes which are collectively named as courseware course pack
		Learning Management System	Used Linways platform to supplement an strengthen the teaching and learning process. Linways provides all the means to record the daily activities by faculty members which can be viewed by students and parents through their login. Demonstration videos and lectures are uploaded in Linways platform to enable the students to access them at their convenience

		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		E-learning videos and lectures	Relevant E-learning materials and videos from good sources are utilized to increase the understanding of concepts and techniques in an effective manner
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Real world exposure	industrial visits, industrial training, internship etc are all part of the regular co-curricular support provided to get exposure to industry requirements and demands of the society.
		Quiz	A set of multi choice questions are given from a relevant topic and to be solved within the specific time
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So tha students can refer it during and after the sessions
		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
6	Aiswarya	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/ processes which are collectively named as courseware course pack
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		E-learning videos and lectures	Relevant E-learning materials and videos from good sources are utilized to increase the understanding of concepts and techniques in an effective manner
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Quiz	A set of multi choice questions are given from a relevant topic and to be solved within the specific time

		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So that the students can refer it during and after the sessions
		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
7	Sithara Sasidharan	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/ processes which are collectively named as courseware course pack
		Learning Management System	Used Linways platform to supplement an strengthen the teaching and learning process. Linways provides all the means to record the daily activities by faculty members which can be viewed by students and parents through their login. Demonstration videos and lectures are uploaded in Linways platform to enable the students to access them at their convenience
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		E-learning videos and lectures	Relevant E-learning materials and videos from good sources are utilized to increase the understanding of concepts and techniques in an effective manner
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Quiz	A set of multi choice questions are given from a relevant topic and to be solved within the specific time
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So that the students can refer it during and after the sessions
		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
8	Arathy A.S	Learning Management System	Used Linways platform to supplement an strengthen the teaching and learning process. Linways provides all the means to record the daily activities by faculty members which can be viewed by students and parents through their login. Demonstration videos and

			lectures are uploaded in Linways platform to enable the students to access them at their convenience
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		Remedial and Corrective action	Revision of the completed portions, especially for slow learners
		Quiz	A set of multi choice questions are given from a relevant topic and to be solved within the specific time
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions
		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So that the students can refer it during and after the sessions
		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
9	Sabira A.S	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/processes which are collectively named as courseware course pack
		Learning Management System	Used Linways platform to supplement an strengthen the teaching and learning process. Linways provides all the means to record the daily activities by faculty members which can be viewed by students and parents through their login. Demonstration videos and lectures are uploaded in Linways platform to enable the students to access them at their convenience
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
		E-learning videos and lectures	Relevant E-learning materials and videos from good sources are utilized to increase the understanding of concepts and techniques in an effective manner
		Quiz	A set of multi choice questions are given from a relevant topic and to be solved within the specific time
		Question and answer bank	Module wise question and answer bank was given for their reference. It contains previous year university questions and its solutions

		Distribution of hardcopies of PPT notes	hardcopies of PPT are given to the students before the content delivery. So that the students can refer it during and after the sessions
		Seminars and group discussions	conducted seminars and group discussions based on the topics from syllabus. It improves communication skills and presentation skills
10	Aparna	Courseware	The Content and mode of delivery of the curriculum can be addressed through a set of documents, literature and various delivery methods/processes which are collectively named as courseware course pack
		Learning Management System	Used Linways platform to supplement and strengthen the teaching and learning process. Linways provides all the means to record the daily activities by faculty members which can be viewed by students and parents through their login. Demonstration videos and lectures are uploaded in Linways platform to enable the students to access them at their convenience
		Multimedia Tools	Power point presentations coupled with video lectures from popular educational sites are employed effectively
